

**SDM®** provides comprehensive nutrition for germinating allowing them to emerge earlier and more uniformly seedlings, while protecting them from biotic and abiotic stresses, resulting in healthy and vigorous plants.

**KEY BENEFITS**

- 1 → Increased Germination and plant stands
- 2 → Earlier and more uniform emergence
- 3 → Better root development
- 4 → Complete nutrition for germinating seeds
- 5 → Helps plants overcome abiotic stress
- 6 → Increases nutrient uptake in seedlings
- 7 → Healthier seedlings

**HEALTHY &  
VIGOROUS  
SEEDLING  
EMERGENCE**

Target Crops	Application (gm/kg seed)
Groundnut	2.5
Corn	3.0-4.0
Cumin	3.0
Mustard	5.0
Cereals and Pulses	2.0-3.0

**METHOD OF USAGE**  
Seed Treatment

**AVAILABLE SKUS**

5gm, 10gm, 25gm, 50gm,  
100gm, 11.3kg Bucket

**Important Considerations:**

- ✔ Use SDM only for seed treatment.
- ✔ Do not use water for seed treatment with SDM; apply it dry.
- ✔ SDM powder can be used alongside all types of pesticides and fungicides.
- ✔ Planting can be done anytime after using SDM powder.

We don't promise greater yields...  
**WE GUARANTEE IT.**

1. Trusted by 200+ Indian Seed Companies to encash the genetic yield potential of their seeds
2. Tested and proven performance under trials at various agricultural institutions/SAUs.
